The Castle Group Seeking Marine Structural Engineer

Founded in 1983 by William J. Castle, The Castle Group continues to be an industry leader as a marine structural engineering and contractor firm for operators of and consultants to entities in need of underwater inspection, design and construction services. Our dual expertise of superior design/build services conveniently provides our customers with seamless, innovative, and cost-effective solutions. We combine the knowledge and design skill of a leading edge marine engineering company with the practical know-how of an expert underwater contractor. The W.J. Castle Group continues to grow significantly through our rare combination of technical expertise, unsurpassed client service and bottom line results. Our new "Hydro-Brace" has us poised to continue breaking new ground as an industry leader throughout the future. If you are a highly motivated professional and team player seeking long term growth with a dynamic company, the WJ Castle Group may be the place for you. Come grow with us!
